

Monitor Meeting, Friday August 4, 6:30p

Theme: Picnic in the Park
Place: Cottage Park, across Cottage
Way from Kaiser Hospital (see
map)

We'll have a potluck picnic of sandwiches and salads. Beer will be provided at cost but you must provide any other beverage such as coffee, milk, or whatever.

The committee will provide watermelon! Bring your own chairs and tableware. Be sure to bring enough sandwiches or salad to feed 3 times the number of people in your own party. (this should cover the committee and guests without anyone being left out).

Come by way of Morse Avenue "entrance" where there is a group of 3 tables. Use parking lot of adjacent school (?).

August 19: Is our Annual Crayfish Party at home of Emil and Viola Hallen, 2701 Clover Lane.

Remember: Each family bring open-faced sandwiches, cookies, and your own lawn chairs. Beer will be available at cost. Any questions - contact Viola at 483-2259.

Deepest sympathy is extended to the family of our loved member Lars Njord, whose July 3 funeral was attended by many fellow members. Lars was 45 years old at the time of his sudden passing from a massive stroke. Lars will be sorely missed and long remembered as a loyal friend and good companion among his many Lodge brothers and sisters.

Want to try something really different??
Join SIS of Europe!

What is it? Student International Service of Europe is an international organization, chartered in Gothenberg, Sweden as a non-profit organization to promote the general interests of international exchange and to carry on work for international understanding through the development of homestay and educational programs for young people of the world. It is family-oriented: Small enough to care. Large enough to cope.

What does it mean to become a part of the SIS family:

As a student: you can apply for the School Year Abroad Program, or to the Summer in Europe Program (most students are placed in Swedish homes). No worry about the language! All students attend the excellent language camp on arrival in Sweden.

As a Host Parent: you adopt a European (mostly Swedish) daughter or son for a year. Your only financial outlay will be the food. But, your emotional outlay will be tremendous.
