CHILDREN'S CLUB: Don and Joy Carlson are teaching Swedish language and culture through games, songs, and Swedish Holiday festivities. Have you involved your children or grandchildren yet? If not, you are missing a rare opportunity. Don is a native of Sweden who has collected widely from the materials available in Sweden today for children --even funny books and nonsense songs. He is a teacher in one of our local schools and he and his wife Joy have two young children whom they work with regularly at home in a story and family hour. So they are well qualified to work with you and yours. CALL THE CARLSON'S number now - 1-783-0260, and get your kids into this. (The Carsons live in Roseville)

Program committee meeting last month brought forth some unexpected benefits. Practically every one there was clamoring for MORE OPPORTUNITY TO EXPERIENCE THINGS SWEDISH in Monitor lodge. Our bright idea folks say "Why not some small in interest groups to get going in some of the things we are pining to learn, do or celebrate, since we seem to be always threatened with the NO TIME SYNDROME. So--Why not? To date people have wanted Swedish cookery and entertaining, Swedish folk dancing, conversation, customs, and travel. So we will be setting up interest group of six or ten people. If you have a burning "Why don't we" desire, let the secretart know and we will put it the hopper.
